EXPERIENCE

• FRONT END DEVELOPER INTERN

DevelopersHub Corporation | 12/2025 - 01/2026

Nexus Platform (React)

- Added scheduling, video call UI, documents, payments, and role based dashboards.
- Improved UI consistency, responsiveness, and deployed updates via GitHub and Vercel.

eCommerce Frontend (Figma to Code)

- Converted Figma desktop designs into pixel accurate HTML, CSS, and JavaScript.
- Built layouts and reusable components using CSS Grid and Flexbox.

• MERN STACK DEVELOPER INTERN

HiSkyTech | 07/2025 - 08/ 2025

Private SaaS Freelancing Marketplace

- Developed role based dashboards with job posting, bidding, tasks, and messaging UI.
- Implemented auth flows, profiles, feedback, and complete job workflow screens.

• ISPR SUMMER INTERNSHIP 2025 | 07/2025 - 08/ 2025

• WEB DEVELOPER INTERN

Sui Northern Gas Pipelines Limited (SNGPL) | 08/2024 - 09/ 2024

- Built a medical reimbursement form from scratch using HTML, CSS, JavaScript, and SQL.
- Designed form validation, data storage, and basic CRUD operations for records.

ACADEMIC PROJECTS

BS FINAL YEAR PROJECT:

SKILLSSELLERS: A FREELANCING MARKETPLACE

Built a secure MERN-stack freelancing platform with a rigorous freelancer vetting system. Integrated real-time messaging, role-based dashboards, and an AI chatbot assistant, optimizing user trust and reducing transaction fees to 3%.

SEMESTER PROJECTS:

- Rent-a-Car Management System (Using React.js)
- AI Restaurant Management System Chatbot: Using Botpress and integrate with website
- IoT Based Real-Time Parking Detection System (Hardware & Web Dashboard)
